SUMMARY

- Over six years experience as a full stack .NET and PHP developer
- Strong blend of front and back end skills, including ability to design and build complex web apps from scratch
- Though not primarily a visual designer I have an eye for good aesthetics and fast, usable design
- T-shaped, flexible skill set. I enjoy learning new technologies, making things work, and adding value wherever needed
- Equally comfortable working in team environments as well as on my own with minimal supervision. Excellent verbal and written communications skills
- Looking for challenging and rewarding part-time work while completing my PhD
